## First Basket Ball Game of Season.

Saturday evening the first basketball game with M. I. T. resulted in a score of 38 to 12 in favor of the home team. New Hampshire at all times had the game well in hand and it was only in the last ten minutes of play that Massachusetts was able to score a basket from the floor.

The first period was rather slow, as the New Hampshire men did not "hit their stride" until after several minutes of play.

New Hampshire showed evidence of good coaching. Captain Holden showed his usual brilliant and reliable form at right forward, and scored the majority of the points made by the home team. Jones at left forward showed his customary speed. Watson played a fast and steady game and was the strength of the defense. His ability to follow the ball kept Massachusetts from scoring. For the visitors Captain Schar and Mowry excelled. The orchestra played before the game and between periods. The summary:

New Hampshire.	M. I. T.
Holden, Capt. rf	lg Freedman
S. Sanborn rf	lg Morse
Jones lf	rg McCarthy
Thompson lf	
H. Sanborn c	c Mowry
Crosby c	
Watson rg	lf Schar Capt.
Lowd lg	rf Schartzze
Came lg	

Score: New Hampshire 38, M. I. T. 13. Goals from floor: Holden 9, Jones 5, H. Sanborn, Lowd, Thompson, Mowry 2, Schar. Goal from fouls: Holden 2, S. Sanborn 2, Schar 7. Referee: "Joe" Killourhy. Timer: Tucker. Scorer: Warner. Time: 2 twenty minute halves. Attendance 300.

### FOOTBALL 1911.

Following is the financial report for the 1911 football season which financially was very successful as compared with former years.

Bates game . . . . .	\$ 75.00	\$48.25
Brown game . . . . .	116.17	150.00
University of Maine game . . . . .	188.16	175.00
Springfield game . . . . .	170.83	175.00
N. H. 2nd—U. S. S. Wisconsin . . . . .	14.75	6.40
Boston College game . . . . .	45.00	13.50
Practice game Exeter . . . . .	9.70	12.50
Rhode Island game . . . . .	105.00	\$2.50
U. S. S. North Carolina game . . . . .	12.00	10.50
Sophomore-Freshman game . . . . .		51.25
U. S. S. Montana game . . . . .	12.00	12.50
Manchester game . . . . .	459.19	707.75
Wright & Ditson supplies . . . . .	307.52	
Coach . . . . .	439.90	
Referee (five games) . . . . .	42.50	
Printing . . . . .	25.80	
Traveling Expenses . . . . .	21.48	
Sundry supplies . . . . .	14.48	
Telephone, Telegraph, Stamps, Express, etc. . . . .	11.40	
Labor on field . . . . .	11.30	
Medical attendance and supplies . . . . .	9.45	
	\$2,091.63	1,445.15
Expenditures . . . . .	\$2,091.63	
Receipts . . . . .	1,445.15	
Net cost . . . . .		\$646.48

The new catalogues are out.  
L. A. Pratt '09, Secretary to the Alumni Association, visited college during the vacation.

### SOME INTERESTING FIGURES.

The total enrollment this year of students in the college is 319 as compared to 280 of last year. The figures show an increase of 11.4% over last year and represent the largest registration in the history of the institution. The students are enrolled among the three divisions as follows:

Agricultural Division	133
Arts and Science Division	83
Engineering Division	96
Total	312

The number in the Agricultural Division as follows:

Four year course	47
Two year course	74
Specials	4
Ten Weeks course	8

Total	133
-------	-----

In order to show the phenomenal growth of the college since the advent of the present administration 8 years ago, the enrollment for the respective years since that time is given below. From these it is noticed that the college has experienced a steady growth and that the present enrollment is nearly treble the registration of 1902.

1902, 111; 1903, 134; 1904, 159; 1905, 195; 1906, 212; 1907, 203; 1908, 231; 1909, 248; 1910, 280; 1911, 319.

The number of the faculty has also increased from 34 to 41. The increase over last year is 20.6%.

### TEN WEEK COURSE.

The ten-week dairy course opened on January 4 with a total of fifteen men enrolled. They are as follows: Clarence Merson Magill, Hinsdale, Mass.; Ernest A. Tourtellotte, Mason, N. H.; Benjamin Ross, Syracuse, N. Y.; Karl D. Norcott, Coos, N. H.; John G. Beattie, Guildhall, Vt.; Edward R. Wilson, Contoocook, N. H.; Burton G. Dana, Keene, N. H.; John L. Lilley, Yale, '09; Waterbury, Ct.; Dana L. Gilpin, Westfield, Vt; Elmer F. Kibbey, Newport, N. H.; Herman L. Norton, North Hampton, N. H.; Francis M. Whiteside, Rome, Ga; Albert Gagonn, Berlin, N. H.; C. B. Walkein, Windsor, Vt.; and G. Clarence Day, West Kennebunk, Maine.

### GLEE CLUB CONCERT.

The concert given by the Glee Club and Orchestra on Wednesday evening, December 20, was a highly successful event. The varied assortment of selections, instrumental and vocal, were all well rendered, and each one drew its round of enthusiastic applause. Among the special features of the evening which merit commendatory mention were the violin solo by H. B. Catlin '12, and the selections by the College Quartette. Each of the soloists executed his portion of the program well, and all were ably supported by the Glee Club chorus and the orchestra.

### 'TEN MAN.

The engagement of Orville F. Bryant '10 of Ashland to Miss Lisabelle Linnell, a Quincy, Mass., school teacher was announced at an engagement party tendered the young people by Miss Linnell's parents, Mr. and Mrs. Arthur E. Linnell, at their home, 86 Davis street, Wallaston, Mass.

### FARMERS' WEEK COURSE.

To Be Held Jan. 29 to Feb. 2.

This course was first offered by the College in the spring of 1909 with a total enrollment of 80. In the spring of 1910 it was offered again with an enrollment of 199; in 1911 it was offered a third time with an enrollment of 238. This year with a better and more varied program than ever it is hoped to reach the three hundred mark.

The course is designed to meet the needs of the every-day practical farmer and his wife who cannot leave home for a long time, but who wish to get some new ideas concerning the latest and most approved methods of farming operations and household work.

The course is open to every one, women as well as men, who are interested in agriculture or domestic science. There will be no expense other than board and room which can be secured from \$1.00 to \$1.25 per day.

The forenoons will be devoted to illustrated lectures in the class room; the afternoons largely to demonstrations and conferences, and the evenings to addresses by prominent speakers from neighboring states, among whom will be the following:

Dr. Leon S. Merrill, Orono, Maine; Dr. Thomas N. Carver of Harvard University; Dr. J. L. Hills of Burlington, Vermont; and the Reverend W. H. Davenport of Colerain, Mass.

The special features this year will be: Rural Progress Work in which will be a discussion of the country church, rural schools, cooperative farming, etc. Woman's Section in which lectures and demonstrations on domestic science and home economics will be given by Mrs. C. W. Foulk of Columbus, Ohio. Competitive Exhibit of seed corn, apples potatoes, and farm butter brought by the farmers in attendance. Annual Meeting of New Hampshire Potato Growers' Association to be held on Thursday of that week. A General Round Up Meeting on the last evening of the course in which there will be short speeches, presentztion of di lomas, refreshments, etc.

### JUDKINS '11 APPOINTED.

Henry F. Judkins of Kingston, assistant in dairying has been appointed assistant to Prof. O'Kane in the brown tail and gypsy moth extermination work. Judkins through experience in work for the dairy department and as a former laboratory assistant in the entomological laboratory is well fitted for the place.

Judkins while a student here played baseball on his class team, was an editor on the College Monthly and 1911 Granite boards, was cheer leader and made his "N. H." in the Rhode Island meet last spring. He is a member of the Alpha Zeta, Zeta Epsilon Zeta and Senior Sculls fraternities.

### BENEFIT DANCE.

An "Informal" was held Friday night January 5th, for the benefit of those who are ill with typhoid fever. In spite of the inclemency of the weather about eighty-five were present and a good sum added to the fund already started. The College Orchestra furnished the music and during intermission ice cream was served.

### OBITUARY.

Rev. Telesphore Taisne, B. A., B. D., pastor of the Durham Congregational church and instructor in modern languages here in college, died Dec. 23 of typhoid fever, after about three weeks illness.

Mr. Taisne came to Durham from Auburn, Me., Feb. 1, 1909 to succeed Rev. William S. Beard. He was born near Paris, France, May 29, 1876, the son of Augustine Taisne. Hereceived part of his education in thatcountry, got his B. A. degree at the French-American College, Springfield, Mass., and his B. D., at the Hartford Theological Seminary.

The year after graduating at Hartford he did missionary work at Marlboro, Mass., and on Nov. 25 1902 he was ordained as pastor of the Second Congregational church at Vanceboro, Me. Before coming hre he held a six years pastorate at the Sixth street Congregational Church, Auburn.

He was very successful here both as pastor and teacher. A man of right scholarship, a strong preacher and with a personality that appealed to young men particularly he leaves vacant a position which can be filled only with difficulty.

Mr. Taisne is survived by his wife, and his father, mother and one sister of Candry, France. Services were held here December 26 following which the body was taken to Westfield, Mass., where services were conducted at the Westfield Chapel by Ex Pres. Lee of the French-American College. Profs. Pettee and Cordullo represented the Durham church and President Gibbs the college at the funeral.

Dr. Samuel Henry Green of Newmarket died Dec. 17th after a short illness. The first years of his medical practice were spent in Durham, and for many years he was the physician on whom Durham depended. He was typical "doctor of the old school," a family friend and adviser, an untiring worker, kindly, sympathetic and remarkably generous. Mnay a family remembers with gratitude the bills he receipted without pay because his patients were "hard up". Never was he known to press a poor man for money or to refuse or stint service where thefee was sure to be lacking. Surely "He shall have his reward."

### INTER-SCHOLASTIC MEET.

The first annual interscholastic athletic meet will be held on May 11, 1912, under the auspices of the New Hampshire College Athletic Association. All the high school and other schools of the state will be invited to compete in the meet. The school winning the largest number of points will receive a silver cup. Gold, silver, and bronze medals will be awarded to winners of first, second and third places respectively in each event. J. H. Batchelder, '12, manager of the track team, will have charge of the affair with the assistance of the assistant managers, P. C. Gale '13, and N. D. Paine '13.

### VICTOR AND HIS BAND.

Don't forget the concert to be held in Thompson hall Saturday night. Victor and His Band will give one of the best concerts ever held in Durham.

## YOU ARE NEEDED.

After a large amount of thought and work the Athletic Association has succeeded in placing in the institution a first class track coach who will be here for the remaining part of the college year. At present the chief effort is to train and coach a relay team to run against Rhode Island in the B. A. A. games on February 10. What is most needed at this time is men, men who have had no experience in running, men who have had some experience, and men who have had much experience. As you know the college needs you who are reading these lines now, the college needs you and needs you badly. If you have had no experience, come and run for the exercise, come and run for the exercise at least; if you have had some experience, you should have more. Is there any man here with red blood in his veins who wishes to see New Hampshire send a team to Boston on the tenth and come back with a severe beating? We take it that there are none such. That being true then this message surely applies to you. Come out and run. We know that Rhode Island has a strong team, and that we must have the very strongest that the college affords, to turn out one that can defeat our rival. We must do it, and we can do it if every student does his part. That part is this: get out yourself, talk it up to others, then work every day and really train to do the best that is in you. If you do not desire to do it for yourself, remember this: the college is building up a name for itself, a severe defeat in so prominent a place as the B. A. A. indoor games will do anything but build up prestige for New Hampshire College. So if you will not come out for yourself, or for the good of the team, come out for the good of the college. Here is a grand opportunity for you to do something other than talk, "Do it for New Hampshire!"

## TO THE INDIVIDUAL STUDENT.

We should like to ask for more co-operation between the student organizations and "The New Hampshire." The New Hampshire as the official organ of New Hampshire College should be given all news as far as possible before it is made public in the papers of the state. We have tried to make the paper a simple live newspaper, without sensation, without flourish. A paper containing news of interest to the student body, news of interest to the alumni, and news of interest to the "prep" school man who intends to enter New Hampshire College. Now as every one knows in a college of this size it is

## BULLETIN FOR WEEK.

Wednesday—7.00 p. m., at College Club room. Bible Study leaders and C. A. Cabinet meeting.

Thursday—7.00 p. m. Glee Club rehearsal at College Club room.

Friday—7.30 Alpha Chi Sigma meeting at Conant Hall. 7.00 p. m. Orchestra rehearsal at College Club room.

Saturday—8 p. m., at Thompson Hall. Venetian Band under leadership of Signor Victor. Miss Hiltz, soprano, will sing.

Monday—7.00 p. m. Agricultural Club meeting at Morrill Hall.

difficult to get news which is new to the student body. However, there are times when with quick action it is possible for "The New Hampshire" to contain new news, if everybody would co-operate and let us have it.

Therefore we would ask the individual student and the leaders of student organizations especially not to be afraid to tell us of events that are likely to happen, and of events that have just happened. We will not betray any confidences you may be sure of that. If there is anything that a newspaper man must do it is to be close mouthed till the proper time comes when the news may be published. Perhaps we may not use the item, perhaps through a misunderstanding with the printer the item may not "get in," experience has shown us this year that there is many a slip 'twixt the pen and the printer. But anyhow if you want this to be a live up-to-date paper do your part and don't hesitate to give us the news.

The Editor.

The season of new resolutions has really passed by for another year—at least if we go by the calendar day, January 1. It always does seem trite and sometimes foolish to speak of New Year's resolutions, but they are far from being amiss in college. One of the very best resolutions that you can make is to get down harder to your college work and endeavor to make the hours count for what those who send you here expect. Those of you who have been thus far loafing and through this or other reasons have received a quota of warnings, have now a last chance to get ready for the final examinations that are soon to come. Can you think of a better resolution to decide upon at this time than to endeavor to systemize your study and consistently to endeavor to get a good preparation for rigours of the week of January 23-27? There is no better one so far as your collegiate work is concerned, it is a distinct debt owed by you to every person who has had a part in sending you to college; it is also a debt that you owe to yourself—an opportunity to make good and thus strengthen yourself for future trials.

The New Hampshire wishes to express its keenest sorrow for the blow that has fallen upon us in the death of our loved and respected pastor and teacher, Rev. Telesphore Taisne. In the death of our friend, we know that we have each lost something in the genial good fellowship that always surrounded him. An intellectual man of power, and polished gentleman, we know that the unique place that he occupied in our life will be one difficult to fill.

To Mrs. Taisne and to the other surviving relatives we extend our hand in sympathy and say that though: "Gone before to that unknown and silent shore," we shall always carry a pleasant memory of the life of our friend and pastor.

The annual business meeting of the Durham Congregational Church will be held at 2 p. m. Saturday Feb. 3.

## Educational Trains

now bring the facts from the Experiment Station direct to the Farmer.

The Experiment Station men are anxious to discuss the questions of most value to the people along the routes. Ask them to bring along an exhibit of fertilizer materials and to tell you how to get the most plant-food for your money.

Recently one train gave demonstrations of actual fertilizer mixing. Soon many will do so. Take your fertilizer dealer to these trains. Ask him to sell **Potash Salts** and brands containing six to ten per cent. Potash.

We shall be glad to send you, free, pamphlets prepared by the best practical authorities on fertilizers for various crops and soils. Write today, mentioning crops and soils that you wish to improve.

WHY YOU SHOULD INSURE IN  
THE MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY OF SPRINGFIELD, MASSACHUSETTS.

Because it's a purely MUTUAL COMPANY—and pays dividends ANNUALLY to its policyholders, (Not to stockholders, because we have none.) It's premium rates are low—its dividends are very large, and its surrender values are extremely liberal—in fact it's "Peerless." Paid up values, cash surrender values, and extended insurance guaranteed after two years premiums have been paid.

Its assets are of the highest class, and its surplus is ample for all contingencies. Write us, giving date of birth and kind of policy desired, and we will forward a Specimen Policy for your inspection.

# DE LAVAL CREAM SEPARATOR

## Now Is the Time to Buy and Start the New Year Right.

There is no good reason to defer the purchase of a DE LAVAL cream separator until Spring. On the contrary you may buy one now and save half its cost meanwhile. Moreover, if you can't conveniently pay cash you can buy a DE LAVAL machine on such liberal terms that it will actually pay for itself.

As to YOUR need of a centrifugal separator, if you have the milk of even a single cow to cream you are wasting quantity and quality of product every day you go without one. This waste is usually greatest with cold weather and cows old in lactation, and it counts most, of course, when butter prices are high. Then there is always the sweet skimmilk and saving of time and labor in addition.

When it comes to a choice of separators DE LAVAL superiority is now universally recognized. Those who "know" buy the DE LAVAL to begin with. Those who don't replace their other separator with a DE LAVAL later—thousands of users do that every year. If YOU already have some other machine the sooner YOU exchange it for a DE LAVAL the better.

Why not start 1912 right in dairying? TRY a DE LAVAL machine for your own satisfaction if nothing else. See the nearest DE LAVAL agent or write us direct and we'll do the rest.

## THE NEED OF A DOMESTIC ARTS COURSE.

At the recent discussions over the addition of a Normal Manual Arts Course in the State College, and the need of a Textile School in New Hampshire, leads one to ask why the logical accompaniment of Domestic Science training is not provided for the young women of the state. It is a fact that in both of the state normal schools where the teachers for the graded schools are trained some work in domestic arts is given. If the necessity is recognized there it is only reasonable to extend it to the high schools, and the State College ought to be enabled to furnish the needed teachers.

Mr. Morrison, Superintendent of Public Instruction, says "I think it is not only desirable but wholly necessary that the State College should give extended courses in the domestic arts and sciences, not only because our high schools are more and more demanding that kind of work and it is more and more difficult to secure teachers, but also because it seems to me that the college can best develop along this line in a woman's general education. We have some seven or eight high schools teaching approved courses in domestic arts this year. This has all come about within the last two or three years. I confidently expect that the list will be very materially extended within even another year and I anticipate that practically every first-class secondary school in the state will be teaching domestic arts and sciences within ten years if they are not held back by the difficulty of getting qualified teachers."

With such a prospect and with the many profitable openings in commercial and institutional work along the same line the girls of the state surely have a right to demand the training to permit them to embrace these opportunities. The State College already furnishes the basis for supplying this need. There is needed no elaborate change. The institution and many of the important underlying scientific courses are already provided. By a comparatively small additional outlay the state can supply its own demand for high school teachers with benefit to itself and profit to its young women.

Miss Sarah Pettee, A. B.  
New Hampshire College, '08.

### ALUMNI NOTES.

R. A. Littlefield '07, is farm superintendent of the Foxborough State Hospital of Foxborough, Mass.

John G. Powers '07 is instructor in science and agriculture at the Hopkinton High school, Hopkinton, N. H. The course in agriculture which he is teaching, was started this year.

A. R. Merrill '04, is director of the agricultural and industrial department of Lyndon Institute, located at Lyndon Center, Vermont. This school was started by Theodore M. Vail, president of the Bell Telephone System of the United States.

Another New Hampshire graduate who is employed by the American Telephone and Telegraph Co. of Boston, Mass., is W. D. Kidder '10. He is also a member of the New Hampshire clique, which is living in Winthrop Highlands, Mass.

E. E. LECTURE.

On Monday evening the local branch  
of the A. I. E. E. was addressed by Mr.  
P. F. Goodrum, Chief Equipmentman  
of the A. T. & T. Co. in Boston. The  
address was mainly on long distance  
transmission of speech. The many  
difficulties encountered and the various  
ways in which each difficulty was over-  
come from the beginning of the tele-  
phone, were explained.

Mr. Goodrum concluded his address  
by explaining the aims of the American  
Tel. and Tel. Co. and the opportunities  
for college men in the telephone business.

The new horse barn has been com-  
pleted.

There are now 62 head of cattle on  
the college farm.

The experiment station has sent out  
the following press bulletins: "Manage-  
ment of the Farm Wood Lot" by Prof.  
Foster, and "Difficult Churning" by  
Prof. Rasmussen.

The dairy department has in its  
possession one of the latest types of  
milking machines. This machine  
though practiced must be handled  
carefully in order to be efficient.

Fully 100 people have already been  
enrolled in the Agricultural Reading  
Courses being conducted by the Experi-  
ment Station this winter. Registrations  
are coming in on every mail and it is  
expected the number may reach the  
300 mark.

Would You Board a Dual Purpose  
Cow if you Could Get a Dairy  
Cow for the Same Money.

is not a cut rate dairy cleaner, but  
it does give you a double value at  
the same or often times a less price  
than you pay for the washing ma-  
terial you are now using.

How does it give you double value?  
Simply by doing all the cleaning that  
other washing materials do and all that  
others leave undone.

Most any washing material will clean  
milk utensils, separators, churns, pans  
bottles, etc., so that they look clean.  
But after using such materials if you  
give them the germ or bacteria test it  
will more often than not show that such  
containers contain sufficient bacteria to  
thoroughly seed with bacteria the whole  
of the new milk with which you subse-  
quently fill them.

Apply the same test to these same  
containers after washing them with  
Wyandotte Dairyman's Cleaner and  
Cleanser, which has often been done,  
and the number of bacteria found is so  
small as to be an almost negligible  
quantity.

The fewer the bacteria, the cleaner  
and the better the milk, consequently,  
milk worth more as milk, as butter, as  
cheese and for all food purposes.

That it pays to use Wyandotte Dairy  
man's Cleaner and Cleanser you have  
but to ask the Dairy Colleges or any  
one of the thousands of dairymen who  
use it, or better still—use it yourself.
